

DisclosuresCQS is a fast and simple online process, providing Basic Disclosures to qualify for the Transaction Conveyancing Quality Scheme.

The Law Society has selected Atlantic Data Ltd to provide CRB checks as part of the new "Transaction Conveyancing Quality Scheme" for its members. We assist a wide range of organisations and national bodies who aim to ensure their members maintain compliance within specific industry sector regulations.

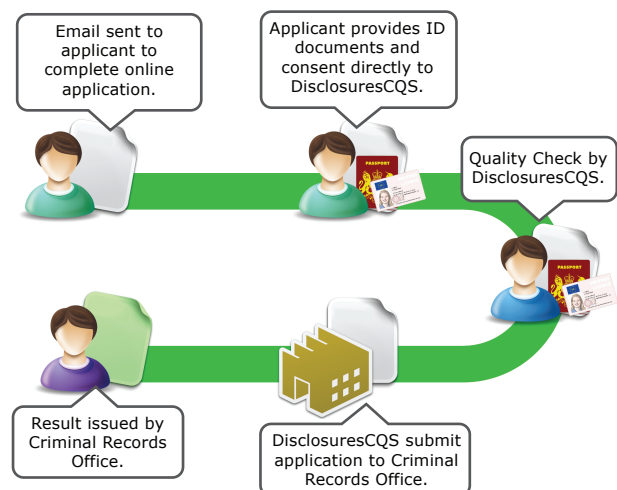

Our application service is easy to use and is accessible to members of the Law Society, via the internet. Applicants' information is entered via a secure online application form and takes just minutes to complete. In order to complete a Basic Disclosure check, applicants will be required to provide their employment details together with details of their identity and other personal information.

Basic Disclosure information provides details of unspent criminal convictions in accordance with the Rehabilitation of Offenders Act 1974, which are held on central police records and will confirm if no such convictions exist.

Atlantic Data Ltd is registered to carry out background checks for compliance purposes for the Law Society. Listed below are the regulatory bodies we are registered with:

- BSI - ISO 9000 & 27000
- All UK Criminal Records Offices
- Ministry of Justice
- The ICO - Data Protection Act 1998.

The Basic Disclosures Process:
